

## **DIRECTIONS FOR PRODUCING CARDS**

**1) Obtain desired 8 ½” x 11” white paper**

Use good quality, heavy stock paper – either cover stock or card stock (typically ~ 67#)  
Please DO NOT use regular (20#) copy paper.

Quality, heavy paper helps provide a more meaningful card

**2) Select desired pages from Christmas card images file or select entire file to obtain a variety of designs.**

**3) Print selected pages on a color printer, if possible, however many copies desired. Two cards will be generated per each page.**

**4) Cut each page in half to generate the two cards per page. Fold each card in half to produce finished card.**
